ENSIGN APPLAUDS TV WATCH COALITION

May 4, 2005

Las Vegas, NV – Senator John Ensign made the following statement in support of the launching of TV Watch, a coalition to better educate and inform parents about options they have to control the TV viewing habits of their children:

“I applaud the creation of TV Watch. This coalition can provide a great service to the American public by educating parents on how to control what children watch. As the father of three young children, I am well aware of the difficulties that parents face. I look forward to seeing the impact that TV Watch can make in addressing these problems. We all agree—we need to work together to protect our children. It is my hope that TV Watch can provide a common-sense solution that will empower parents.”
