GUIDELINES (FY10-3)

PROGRAM GUIDELINES The Kentucky Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) Matching Funds Program

A. SUMMARY

The Kentucky SBIR-STTR Matching Funds Program is designed to award matching funds to for-profit, Kentucky-Based companies that have been granted Federal Small Business Innovation Research Program or Federal Small Business Technology Transfer Program (the “Federal SBIR-STTR Program”) Phase 1 or Phase 2 Awards for research and technology development that are consistent with one or more of the five research and development Focus Areas as defined in the DCI 2002 Kentucky “Strategic Plan for the New Economy” and as ratified in November 2007. The five Focus Areas are: (1) Biosciences, (2) Environmental and Energy Technologies, (3) Human Health and Development, (4) Information Technology and Communications, and (5) Materials Science and Advanced Manufacturing. “Kentucky-based” is defined as “a business with its principal place of business in Kentucky and no less than 51% each of its Property and Payroll (as defined in these Program Guidelines) located in Kentucky.”

The Grant Agreement for both Phase 1 and Phase 2 Kentucky SBIR-STTR Matching Funds Awards shall require the Recipient company to maintain, report and certify its Kentucky based status for 60 months (five years) after final disbursement of funds or repay the entire grant amount.

Companies located outside of Kentucky are eligible to apply. The Grant Agreement for out-of-state companies will include the stipulation that no funds will be disbursed until the company satisfies all the requirements set forth in these Guidelines. The company will have 60 days from the date of the Grant Agreement to relocate to Kentucky and meet the other eligibility requirements for the Kentucky Matching Funds Award Program. If the eligibility requirements are not met after 60 days, then the funds identified for the Grant will be forfeited and made available to other companies. A company from outside of the Commonwealth of Kentucky may not commence work on its Federal SBIR-STTR effort until after it has transferred its primary place of business to Kentucky. If an out-of-state company has already commenced work on its Federal SBIR-STTR grant before relocation to Kentucky, it will not qualify for the Kentucky Matching Funds Award Program for that specific Federal SBIR-STTR Grant. The company must also submit documentation showing acknowledgement from the Federal Agency regarding its physical relocation to Kentucky and transfer of the Federal Grant to Kentucky. Also required is a certification that no less than 51% of the Applicant’s Property and Payroll is in Kentucky and that 51% of the Matching Funds grant activity will be conducted in the Commonwealth of Kentucky.

The Federal SBIR-STTR Program is administered by 11 Federal agencies for the purpose of providing research and development funding to small companies. Companies compete for funding under this program by submitting proposals in response to solicitations issued by participating Federal agencies. The Federal SBIR-STTR Program provides funding in two phases that are relevant to the Kentucky program: **Phase 1** - to conduct feasibility research and **Phase 2** - to expand and develop Phase 1 results and develop commercially viable innovations.

GUIDELINES (FY10-3)

The Federal SBIR-STTR Program also includes **Phase 3** for commercializing the product or process developed in Phase 2 using non SBIR-STTR funds. More information about the Federal SBIR-STTR Program may be found at: www.sbir.gov.

The KENTUCKY SCIENCE AND TECHNOLOGY CORPORATION (KSTC) under contract with the Kentucky Cabinet for Economic Development (CED), Department of Commercialization and Innovation (DCI), administers the Kentucky Small Business Innovation Research and Small Business Technology Transfer Matching Funds Award Program in the manner set forth in these Guidelines (the “Guidelines” or “Program Guidelines”). Companies may apply for funding under the Matching Funds Award Program by submitting an Application to KSTC in response to this solicitation developed and issued by DCI/KSTC. Under the Matching Funds Award Program, a qualified business may receive: one (1) SBIR-STTR Phase 1 Matching Funds Award (either an SBIR or an STTR Phase 1 Award) and one (1) SBIR-STTR Phase 2 Matching Funds Award (either an SBIR or an STTR Phase 2 Award) during each fiscal year of the Commonwealth of Kentucky (July-June). DCI will designate total funds for Matching Funds Program awards in each solicitation and provide dates during which Applications may be submitted in each solicitation. Applications that meet the requirements set forth in the Program Guidelines will compete for Matching Fund awards. Under the program guidelines for the Matching Funds Program, KSTC will receive and review Applications with assistance from a panel of external reviewers and make recommendations to DCI for award of matching funds to Applicants that are determined to be meritorious amongst the qualified proposals. This process will be followed upon issuance of each solicitation. Awards will be made for up to 100% of an Applicant’s Federal SBIR-STTR award but shall not exceed \$100,000 for Phase 1 and \$500,000 for a Phase 2 Matching Funds Program award. Notification of an award shall be made within eight to ten weeks after the close of a solicitation. All Applicants will receive their reviewer comments. Companies that are not successful in receiving a Matching Funds Award can re-apply once during the next solicitation period.

All Applications shall be submitted through the Online Application and Reporting System. The system can be accessed through the link at <http://www.kintera.org/site/c.deIDLKOUGrF/b.2857105/>

B. PROGRAM PURPOSE

The purpose of the Matching Funds Program is to foster job creation and economic development in Kentucky by increasing the competitiveness of Kentucky’s Small Businesses in attracting Federal SBIR and STTR grants, and providing an incentive for Phase 1 and Phase 2 Award-winning companies to make further progress along the path to commercialization. The goals of the Matching Funds Award Program are to: (1) increase the number of Applications for Federal research dollars submitted by Kentucky Small Businesses conducting research and technology development in one or more of the five DCI Research Focus Areas; (2) help Kentucky companies bridge the funding gap period between the final Phase 1 payment and the first Phase 2 payment in the Federal SBIR-STTR Program; (3) increase the intensity of the research conducted under Phase 1, making Kentucky Small Businesses more competitive in the competition for Phase 2 funds; (4) augment the funds available for Phase 2 projects to help improve commercialization efforts leading to Phase 3 activities; and (5) encourage the
