

2010 Memory Walk

Creating your personal Web page

There is no better way to spread the word about your commitment to Memory Walk and ask for support in reaching your fundraising goal than emailing your personal Web page to friends and family. Your personal Web page can tell the story of why you are involved.

To access your personal Web page, login to your HQ and click the “My Web page” Tab.

Once you are in “My Web page,” you can edit the text, image and theme of your page.

Web page Image

You can add an image from the image library to your Web page by clicking “select” under the Web page image header. You can also add a personal picture by clicking “upload.” (All images must be in .jpg or .gif format and not larger than 50kb. The recommended size is 300x234 pixels.)

Don’t forget to title or explain your image by editing the text in the “Caption under image” section. Once you have selected an image, click “submit” at the bottom of the page.

Web page Text

To tell your story of why you are participating in Memory Walk you can edit the text portion of the Web page or you can choose from one of the already existing templates by clicking the “select” button under the Web page text header. Also remember to click submit at the bottom of the page after making any changes.

Choose a Theme

Select a theme for your personal Web page by making a selection in the drop down box under the “Choose a Theme” header. Once your theme is selected, click “submit” at the bottom of the page.

Preview Your Personal Web page

As you make changes, you can see what your personal page will look like by clicking “View Personal Page” under the “My Web page” tab.
