research@gcah.org
<http://www.gcah.org>

The following pages list the microfilm and CDs of historical material which are available for purchase from the General Commission on Archives and History of The United Methodist Church.

The material here represents over thirty years of filming and preservation concern. The catalog has been arranged topically. It is possible that some microfilm projects are listed more than once. In a few cases a roll of film will contain more than one project.

The following is a brief summary of each of the primary categories: *Agency Journals* are publications produced by denominational agencies. Such agencies could be a publishing house, a mission agency or some other agency authorized by the General Conference. *Conference Journals* are the official records of annual conference. In many cases the journals may cross merger boundaries. *Local Churches* are local church records. *Monographs and Miscellaneous Material*, are small booklets and other assorted publications. The material has been arranged by the denominational topic or issue. A few fall into a miscellaneous category and appear at the beginning of this section. Many of those deal with British Methodist issues. *Organizations* are corporate bodies, but not responsible to the denomination's General Conference. These could be schools and other church-related institutions. *Periodicals* are church-related newspapers. When possible they have been identified with a particular denomination. There is no general subject index.

In general HS project numbers reflect work done by the former Evangelical United Brethren Historical Society, while a UM number represents work done by GCAH . A PRUM project number represents a CD version of the material. Where there is a CD version there is also a microfilm version.

Order film by title and project number. Prices subject to change without notice. Please contact the Commission before placing an order. Prepayment is required. An order form appears at the end of this document. When ordering a multi-reel project write down the project number, the title and the number of sets you want. The price is the cost for the entire set. For example, if you want one 2-reel set then enter 1 under *Quantity* and under *Price* \$70 and under *Amount* \$70. If you want two sets of a 2-reel project then enter 2 under *Quantity* and under *Price* \$70 and under *Amount* \$140. If you have questions please feel free to contact us.
