Feature Highlights:

Grant Application Workflow

Improve and simplify grant program workflow:

Create Online Grants Applications – Customize grant applications, removing fields or adding new fields as needed. The system is also configurable to support letters of inquiry prior to accepting online applications.

Capture Grants Applications Online – Nonprofits can complete grant applications and check their grants status online, eliminating the need to type out each page and then to put 30–40 bulky pages in the mail. Send branded e-mail confirmations automatically when grant applications are submitted.

Set up Grant Application Workflow – Customize forms in the workflow for organizational information, primary contact, letter of inquiry (LOI), application, final feedback and withdrawal.

Manage Grant Applications and Distributions – Kintera's Grant Management tools are integrated with the Online Grant product. Streamline back office grant processing and call center operations by capturing and managing applications with one system. Track distributions for each application.

Build Branded Web pages – Kintera Online Grants is integrated with Kintera's CMS* content management system providing the capability to build grant application Web pages that have the same branding look and feel as the foundation's Web site.

Constituent Relationship Management – Online Grants is integrated with Kintera's CRM* product. Relationships are built as the workflow is executed, helping to connect grantee information and processes more effectively. Once the foundation has the contact information, they can use the data with bulk mail tools.

Connect Funds with Donors and Grantees – Track fund creation and financial info, including interests, relationships with supporters and statements. View gifts and grant distributions by fund.

Provide Flexibility for Applicants – Applicants can save their profile and reuse it for future applications, saving time and ensuring up-to-date data. Online Grants also allows applicants to save partially completed applications prior to submission and return to the Web site at a later time to complete the application.

Online Grant Review

Facilitate the grant review process:

Customize Web site and Workflow for Reviewers – Build unique Web sites for reviewers to review letters of intent and applications online and provide feedback. Feedback may be private or shared with other reviewers and, your organization can view the status and recommendations of reviewers.

Grant Submission Reporting – Run reports to gain insight into current state of grant applications. Powerful reporting allows for real-time review process monitoring.

Grant Applicant Communications – Communicate with grant applicants throughout the stages of your decision-making process. Send targeted e-mail communications to specific applicants based on grant information, reviewer's recommendations, or final decisions. All e-mails sent are recorded in the applicant's profile.
